Hello Everyone,

I found the dog in this picture two days ago. She appears to be deaf. Please give me a call if you know whose dog this is.

Nice looking dog. I read somewhere that it's quite common for pure white dogs and cats with blue eyes to be deaf. Has something to do with the genes. I also read that despite that they make great pets. I'm assuming they compensate with other senses and non-verbal queues.

Anyway, I hope it finds a home real soon. Looks like a friendly dog.

No wonder they lost the dog - it's invisible!
