
A Crude Awakening The Oil Crash _full movie

Posted by intoeyes2001 - 2008/04/24 22:55

OilCrash, produced and directed by award-winning European journalists and filmmakers Basil Gelpke and Ray McCormack, tells the story of how our civilization's addiction to oil puts it on a collision course with geology. Compelling, intelligent, and highly entertaining, the film visits with the world's top experts and comes to a startling, but logical conclusion – our industrial society, built on cheap and readily available oil, must be completely re-imagined and overhauled.
